DestekBank

Contents

The principles of compliance and how they are addressed are presented. The elements considered in risk management are listed.

DestekBank

Compliance

DestekBank complies with the corporate governance principles set out by the banking legislation, capital market legislation, as well as the Turkish Commercial Code and other applicable legislation, and pays the utmost attention to implement these principles.

DestekBank leverages 'Dow Jones Risk & Compliance' and 'LexisNexis Data Solutions' to assist institutions in managing third-party risks related to AML, sanctions, and anti-bribery/corruption. DestekBank obtains data from Dow Jones and use a third party tool for sanctions filtering.

The Bank's risk appetite regarding compliance risk related with money laundering and financing of terrorism regulations is zero. Therefore, The Bank shall get all the measures in order to keep the compliance risk at minimum in a permanent manner, in all its activities.

The purpose of KYC is to ensure clarity in the customer's transactions and information, to establish and to maintain a relationship based on mutual trust. The Bank handles the KYC process with a risk-based approach.

Risk Management

Market Risk

Trading, structural interest rate risk limits; sensitivity and repricing analysis

Liquidity Risk

Total liquidity and FX liquidity ratios managed daily; Liquidity planning policy for emergency; Liquidity gap analysis.

Credit Risk

Risk based pricing, diligent loan assessment and close customer follow up ; Adequate Provisioning.
