**06 SSI**

# Policies & Targets

## Vision

The Bank, foreseeing and acknowledging the low level of the present size of especially investment banks in the real sector of the economy , will deploy its sources to fill the relevant gap.

## Best Banking Practices

Swift decision making, cost conscious wholesale banking, risk based pricing.

## Loan Segmentation

Corporates and Commercial companies are the target customers. The focus is both on cash and non cash products.

## Sustainability

Since the Sustainability involves leaving future generations a livable world that is ecologically, economically and socially sustainable, the Bank is fully aware of the environmental and social responsibilities.

“

**Experienced Top Level Management & Good Staffing**

The relevant vast experience of the Chairman, CEO in financial sector together with a qualified personnel recruitment policy would enable the Bank to grow fast.

**06 SSI**

# Compliance

DestekBank complies with the corporate governance principles set out by the banking legislation, capital market legislation, as well as the Turkish Commercial Code and other applicable legislation, and pays the utmost attention to implement these principles.

Dow Jones Risk & Compliance provides premier data solutions and services to help organizations manage third-party risk across anti-money laundering, sanctions, anti-bribery and corruption. DestekBank obtains data from Dow Jones and use a third party tool for sanctions filtering.

The Bank's risk appetite regarding compliance risk related with money laundering and financing of terrorism regulations is zero. Therefore, The Bank shall get all the measures in order to keep the compliance risk at minimum in a permanent manner, in all its activities.

The purpose of KYC is to ensure clarity in the customer's transactions and information, to establish and to maintain a relationship based on mutual trust. The Bank handles the KYC process with a risk-based approach.

# Risk Management

## Market Risk

Trading, structural interest rate risk limits; sensitivity and repricing analysis

## Liquidity Risk

Total liquidity and FX liquidity ratios managed daily; Liquidity planning policy for emergency; Liquidity gap analysis.

## Credit Risk

Risk based pricing, diligent loan assessment and close customer follow up ; Adequate Provisioning.
